This research aims to (1) know the dynamics of the form of greeting santri to the manager (2) the dynamics of the form of intersantric greeting (3) the dynamics of the form of greeting santri against santri abdian.

Theoretically, this study uses sociolinguistic approaches, because sociolinguistic approaches are used in the form of data in the form of oral speech and society as objects in their research. This research only focuses on the dynamics of the form of greeting santri in one of the boarding schools located in Sumenep Regency precisely in Pondok Pesantren Al-Ulya which is under the auspices of Madrasah Aliyah Negeri Sumenep.

The determination of the location is based on several reasons (1) the cottage is a gathering place for students from various regions with different regional languages, thus allowing a variety of new greetings (2) in the pesantren has rules to greet or call the manager, making it easier for researchers to get data.

The data collection procedure in this study uses the simak method, with sadap techniques. This technique is realized with a free libat cakap technique, record technique and recording technique. This is done so that the data obtained is really accurate and concrete.

The results of research on the dynamics of the form of greeting santri in Pondok Pesantren Al-Ulya MAN Sumenep namely, (1) the dynamics of the form of greeting santri to the manager is a standard greeting that cannot change even though the manager has been replaced with a new generation of managers; (2) The dynamics of the form of intersantri greeting refers to some aspects attached to the santri. The reference is the physical characteristics, santri habits, and refers to their participation in extracurricular activities: and (3) the dynamics of the form of santri greeting to santri abdian is also relatively standard.
