

## **ABSTRACT**

Analysis of the Role of the Police in Enforcing Traffic Order through the Implementation of the Electronic Traffic Law Enforcement (ETLE) Program in Sumenep Regency: 2023. Moh. Halili

**Keywords:** Electronic ticket, the role of the police, application

The lack of socialization, in addition to the use of electronic ticketing, manual ticketing is also still being implemented, and only certain areas are being implemented and the number of violations is increasing. Based on that, this study aims to analyze the role of the police in implementing the electronic ticketing program in order to find out in detail the role of the police and its application.

This research uses a qualitative approach with a type of field research. Data collection techniques used were interviews, observation, documentation and data analysis using data reduction, data presentation, triangulation and finally drawing conclusions.

The results of research related to the role of the police and enforcement of traffic order through the application of electronic fines in Sumenep Regency are known for the findings of the data from this study, namely the number of violations has decreased, but there are still many unconfirmed responses to traffic offenders, openness between the community and the police, socialization has been comprehensive but still not optimal, and the payment process is more complicated and law enforcement related to electronic tickets is less than optimal. Electronic ticketing is ongoing, but its implementation is still not optimal.
