

ABSTRACT

Analisis Efektifitas Model Pembelajaran Pikebadici Pada Siswa Kelas III Tema 5 Subtema 1 Pembelajaran 1 di SDN Gayam II

Keywords : Effectiveness, Pikebadici Learning Model

This research was conducted at Gayam II Elementary School, Gayam, Sumenep. This research was conducted in the 2022/2023 school year. The research aims to determine the effectiveness analysis of the Pikebadici learning model in class III students, theme 5, sub-theme 1, learning 1 at SDN Gayam II. With a total of 13 students, 4 male students and 8 female students.

Sources of data in this study are primary data and secondary data. The primary data are the results of the interviews, while the secondary data supports this research. data collection in this study is used a descriptive qualitative approach method.

The results of the data analysis in this study were for third grade students at SDN Gayam II, namely that it was very effective to apply or do during the learning process while in class. Because after using this learning model students are able to understand and easily understand the material presented by the teacher while teaching. Therefore, from the explanation above, it can be concluded that the Pikebadici learning model in class III students at SDN Gayam II is said to be effective to apply in class.
