

ABSTRACT

Factors Supporting Wall Climbing Achievements in UKM Mayapada STKIP PGRI Sumenep. Sumenep District in 2023. Dewi Ambarwati.

Keywords: *Influece, Achievement, Wall Climbing*

The background of this research is the decline in wall climbing achievement in UKM MAYAPADA STKIP PGRI Sumenep. This study aims to determine what factors influence the decline in wall climbing achievement in UKM MAYAPADA STKIP PGRI Sumenep.

The research design uses qualitative research. The method used is descriptive qualitative method. Data collection was carried out by means of observation, interviews, and documentation with research subjects in the form of coaches, athletes, and wall climbing administrators at UKM MAYAPADA STKIP PGRI Sumenep. Data analysis was carried out by selecting the main points of the data obtained and then presented in the form of descriptions and the like followed by collecting research results so as to obtain results that were easier to understand.

The conclusion from the results of this study is that the factors that influence wall climbing achievement in UKM MAYAPADA STKIP PGRI Sumenep include 2 factors, namely internal factors and external factors. Internal factors are factors that come from within oneself which include physical abilities and conditions, body shape, technique, tactics, psychology and personality, while external factors are factors that come from outside the athlete's self which include trainers, facilities and infrastructure, organization, environment, coaching and competition.
