

ABSTRACT

Analysis Of The Basic Technical Skills Of Passing The Futsal Team At Sma Negeri 2 Pamekasan.

KEYWORDS : Futsal, Basic Passing Techniques, SMAN 2 Pamekasan Team.

There are many things that affect the basic technique of *passing* futsal not working effectively, as is the case with the SMA Negeri 2 Pamekasan futsal team. There are still many players who have not mastered the basic techniques off *passing* property and correctly, so that at the start of match the game does not run optimally.

This study aims to analyze the basic technical skills of futsal *passing* in the Pamekasan 2 Public high School team. While this type of research is quantitative descriptive research. The subjects used in this study were the Pamekasan 2 Public High School team, which consisted of 15 players and was a population study. The instrument used was the *Passing* Futsal Skills Test while analyzing the data using descriptive statistical analysis which was included in the form of a percentage.

The results of the data show that 40,000% (6 players) are in the “low” category out of 15 players. In the “moderate” category there were 53,333% (8 players) out of 15 players. While in the “good” category there were 6,667% (1 player) out of 15 players. This category only applies to the group under study and cannot be generalized. The results of this study based on the analysis of research data are as follows it can be concluded that the basic technical skills of *passing* futsal for the Pamekasan 2 Public High School team are in the “medium” category.
