

ABSTRAK

Pengelolaan Sarana dan Prasarana Pendidikan Jasmani Kesehatan dan Rekreasi di Kampus STKIP PGRI Sumenep Tahun 2022

Oleh

Mr Firda Andrya Fitri

To produce conditional learning objectives and learning outcomes in educational institutions, the management of facilities and infrastructure is very important. The availability of these facilities and infrastructure will be used as a measuring tool to determine how big a role successful attacks play in teaching and learning activities, and how to make the best use of their presence in these activities. On the STKIP PGRI Sumenep campus, this was done. The purpose of this research is to learn how to manage the facilities and infrastructure that currently exist on the STKIP PGRI Sumenep campus. by using observation, interviews, and documentation to collect data, the management of campus health and physical education facilities STKIP PGRI Sumenep is based on
