

## **ABSTRACT**

Analysis of the Implementation of the Project to Strengthen Pancasila Profiles with the Theme of a Sustainable Lifestyle for Phase B Students at SDN Marengan Daya I in the year Lesson 2022-2023 :2023. Naematus Zahro

Keyword: Pancasila student profile strengthening project, sustainable lifestyle.

This study aims to determine the application of the project to strengthen the Pancasila student profile on the theme of a sustainable lifestyle for phase B students at SDN Marengan Daya I. Based on these objectives, researchers will describe the implementation of the project and also its supporting and inhibiting factors during the implementation process. The problems in this research are the lack of students' knowledge of the sustainable lifestyle applied in the project to strengthen the Pancasila student profile, the lack of student awareness of the importance of sustainable living and the lack of students' concern for the surrounding environment including the school environment.

This research uses a qualitative approach with a case study research type. Data collection techniques using interviews, observations, and documentation. Then the research results are used as a text or narrative in the form of this thesis.

The results of the research conducted on Phase B students at SDN Marengan Daya I show that the project to strengthen the Pancasila student profile with the theme of a sustainable lifestyle has been implemented at the school. In the implementation process carried out, of course, many projects have been carried out by students including making eco-bricks, making mats from plastic waste, making bags from used straws and also cultivating sustainable living characters for phase B students. Of course, in the implementation process there are supporting factors as well as inhibiting factors.
