

ABSTRACT

Pengaruh Media Stick Pouch Terhadap Kemampuan Berpikir Kritis Pada Pembelajaran Matematika Fase A SDN Kolor II Sumenep. Dewi Sulastri

Keywords: Media Stick Pouch, Critical Thinking Skills, Multiplication and Division

The goal of this research is to investigate the impact of Stick Pouch media on critical thinking abilities in grade II students at SDN Kolor II Sumenep. In addition, it will be determined if the usage of Stick Pouch media meets the Minimum Completeness Criteria (KKM) in class II SDN Kolor II Sumenep.

This research includes quantitative research. The research design is One Group Pretest-Posttest Design. The population and sample in this study were 21 class II students at SDN KOLOR II Sumenep for the 2023/2024 academic year.

The results of the research obtained have shown that the Stick Pouch media for multiplication and division learning students obtain a value that can exceed the completeness set by the KKM. This has been proven by the calculation assisted by the SPSS. Based on the results of the calculation of the average difference test, it is proven from Sig. pretest 0.108 and 0.055, while Sig. posttest 0.200 and 0.200 whose value $> \alpha$ value of 0.05.
