ABSTRAK

The Pancasila profile is a very important thing to shape national character, Pancasila values and tolerance. With the Pancasila profile, a nation will not be easily divided because it is built on a shared awareness that Pancasila is important to practice as the basis of the state. Then, from that, the profile of Pancasila, when connected with the theory developed by Sheikh Az-Zunnuji, forms a complete unity between the relationship between religion and the state, that when the religion is strong from the aspects of the faith, the minannas and the nature, then everything will be well maintained. in accordance with religious and state ideals.

The aim of this research is to describe the profile of Pancasila students in elementary schools today, analyze the application of Pancasila student profile values using the work of Sheikh Az-Zarnuji in the Book of Ta'limul Muta'allim in elementary schools, identify obstacles and challenges in implementing Pancasila student profile values using Sheikh Az-Zarnuji's work in the Book of Ta'limul Muta'allim in elementary schools, and evaluating the effectiveness of implementing the Pancasila student profile values using the work of Sheikh Az-Zarnuji in the Book of Ta'limul Muta'allim in elementary schools. in elementary school.

Based on the above objectives, this research takes a framework of thinking based on the basic concepts of the Pancasila Student Profile, then moves to the Theory of Sheikh Az-Zarnuji in the Book of Ta'limul Muta'allim as a theoretical framework used to understand and apply the Pancasila student profile. Next, this research will look at how this theory is implemented in elementary schools. Finally, this research will conduct an analysis of the extent to which the Pancasila student profile has been strengthened through the implementation of this theory in schools.

The research method used in this research is qualitative with a descriptive approach, and as a procedure for collecting data so that the data is collected according to what is desired, observation, interviews and documentation methods are used as a basis for the research to run well. Then the research object chosen was related parties within the school which included a teacher and students by referring to the interview guide that had been created.

The results of this research entitled "Analysis of the Value of Strengthening the Pancasila Student Profile Using the Book of Ta'limul Muta'allim by Sheikh Az-Zarnuji and Its Implementation in Elementary Schools" show that the Pancasila profile produces students with values and character; knowledgeable, moral and tolerant, in its application with discussions and training held in schools, the challenges are a lack of human resources, social and cultural resources, and a diverse understanding of the pancasal profile. The implementation is quite effective with contributions and support from all stakeholders in the school and involving students and teachers

Keywords: Analysis, Values, Pancasila Profile.
