

## **ABSTRACT**

*Analysis of Pancasila Student Profiles in School Culture at Istighosah Activities at SDN Prancak II. 2024. Nur Wahyudo Fawaid*

**Keywords:** *Pancasila Student Profile, School Culture, Istighosah*

*The aim of this research is to describe the analysis of the Pancasila Student Profile on the dimensions of faith, devotion to God Almighty, and noble character found in school culture, namely istighosah activities at SDN Prancak II.*

*This research uses a descriptive qualitative research model. Research data was obtained from interviews, observations and documentation of the implementation of istighosah activities which were then analyzed using descriptive analysis. The subjects of this research were the principal of SDN Prancak II as the policy maker relating to the implementation of school culture and the teacher responsible for istighosah activities as a source of information on the objectives of these activities.*

*Based on the research results, it was found that there is an application of the Pancasila student profile in the form of dimensions of faith, devotion to God Almighty, and noble character in the istighosah school culture at SDN Prancak II. This is proven by several other activities in istighosah activities, namely: (1) Kultum activities, the content of the cult is spiritual provision given to students based on material in the Ta'lim Muta'alim book and translation of istighosah readings (2) Friday activities Almsgiving is a routine activity carried out at the same time as istighosah every Friday. In applying the first dimension found in istighosah activities, it is reduced to the elements of religious morals, morals towards humans, personal morals, national morals and morals towards nature.*
