

ABSTRACT

Student Academic Dishonesty Behavior During Learning

Academic Dishonesty behavior is a dishonest act carried out by students to gain personal gain in a bad way such as copying a friend's answer, copying and pasting a friend's answer and several other dishonest behaviors that can harm friends and harm themselves in order to get good results and avoid failure in education. This research was located at SMP Negeri 1 Kalianget. The subjects used were students in class VIII-G of SMP Negeri 1 Kalianget with research methods using a qualitative descriptive approach with the type of field research.
