Safitri, Hulfiana. 2024. *Karakteristik Relasi Makna Sinonim dalam Bahasa Mandar di Desa Pagerungan Besar. Pembimbing (1); Suhartatik.M.Pd, Pembimbing (2); E.A.A Nurhayati, M.Hum. Skripsi, Program Studi Pendidikan Bahasa dan Sastra Indonesia, STKIP PGRI SUMENEP.*

Keywords: Synonyms, nouns, verbs, adjectives, language Mandar

This research focuses on the problem of synonyms for nouns verbs and adjectives in the Mandarese language. The aim is to explain the characteristics that differentiate word in Mandarin. This research is descriptive in nature and uses primary (written) and secondary data from respondenst. Listening note taking and documentation methods were used to collect data. Because the standard is in written form, the analysis is carried out using the orthographic similarity method. According to the analysis carried out, most of the nouns, verbs and adjectives in Mandarin have almost the same synonyms. Pairs of synonymous, nouns, verbs and adjective have the same semantic characteristics. Pairs of nouns, verbs, and adjectives are synonymous because the have different aesthetic meanings, and their sentence forms are different. Not many word are considered synonymous, and dialect influences the use of synonymous word in spoken and written, formal and informal texts. Since each pair of synonymous has different characteristics, the person speaking must be very careful. This will prevent misunderstanding and ambiguity when receiving information.
