**Key words : inner conflicts, personality structure, Sigmund Freud psychoanalysis**

This study aims to describe two important aspects to describe the inner conflicts on novel "*Perjalanan Hati*" written by Riawani Elyta and its effects toward the main character personality.

This research employed literature psychology approach by using personality theory (psychoanalysis) by Sigmund Freud. The data source gained from the novel "*Perjalanan Hati*" written by Riawani Elyta which was published by *Rak Buku Cetakan I Jakarta, 2013*. The data then experienced reduction, selection which were eventually interpreted. This study applied qualitatively and the method was literature.

The result of this study as follows: (1) inner conflicts on this novel "*Perjalanan Hati*" seen from the anxiety, pressure towards wishes, contradiction between desires that are dissonant with the reality and wish to the desires, (2) the effect towards the personality of the main character by using personality structure by Sigmund Freud seen from id,ego, super ego components.
