

ABSTRACT

SURVEY BASIC SKILLS OF BOLABASKET PASSING EXTRACURRICULAR PARTICIPANTS BOLABASKET PRINCESS IN SMAN 1 BATUAN SUMENEP

Keywords: Basic Techniques, Passing, and Basketball.

Mastery of basic skills is one of the efforts to improve achievement towards higher. The level of skill possessed by the players will determine his appearance in a basketball match. In the implementation of the basketball game, it is done by several people so that it can be said that the basic skill level of each basketball player is different from each other. Therefore, skills can be obtained or mastered if learned or trained continuously in a certain period. The aim of this researcher is: To know the basic skills of Passing, Dribbling, and Shooting in basketball extracurricular participants in SMAN 1 Batuan Sumenep.

This use of samples is part of the number and characteristics possessed by that population. If the population is large, and researchers may not study everything in the population, for example due to limited funds, energy and time, then researchers can use samples drawn from that population. What is learned from the sample, the conclusion can be applied to the population. For this reason, samples taken from the population must be truly representative. Purposive sampling technique research. The purpose of the sample is to take the subject based on a specific purpose. So that the samples in this study were all male extracurricular basketball participants of SMAN 1 Batuan Sumenep.

Based on the results of research and discussion, it can be concluded that the overall basic technical skills (Passing, dribbling and shooting) on the women's basketball extracurricular team at SMAN 1 Batuan Sumenep in the medium category are included in the norms of the female high school basketball playing skills test.
