

ABSTRACT

THE EFFECT OF LEARNING MEDIA IN THE FORM OF CARTOON VIDEOS ON SKILLS OF STUDENTS IN STUDYING THE BASIC SCHOOLS IN MY HEROES IN SDN DARAMISTA II

Keywords: Cartoon Video Media, Listening Skills

This thorough at the purpose for now using effect video cassette media about scrutinize skill to student class IV elementary school Daramista II. This thorough was conducted in elementary school Daramista II at October 2019. This thorough method used in this study was Pre Experiment Design Type One Group Pretest-Posttest Design.

Sampling removal did with use sampling drawing technique which researcher use is surfeited sampling is determining sampling technique when population all member use such sampling.

*Instrument use this thorough be paid multiple choice and questionnaire for observe activity learning process. Technique encode analysis use this thorough with validity test, normality test use Kolmogrov-Sminov and Shapiro-Wilk with significant standart $> 0,05$, at result normality test Kolmogrof-Sminov pretest result, result $0,26 > 0,05$ and normality test Shapiro-Wilk for posttest $0,40 > 0,05$. Homogeneity test quantification so give homogeneity encode with result significant price amount of $0,126 > 0,05$ then can knot that homogeneity test result this thorough indication homogeneity population two variant because significant criteria fill $>$ significant standart then advanct with hypotheses test use *t*-test.*
