

ABSTRACT

Lisnawati, The Improving Of Outcomes Learning Student By Creative Action Story Picture Media, Theme Always Save Energy. Subthemes The Benefits Of Energy Class IV SDN Bangselok I

Key words: Outcome Learning, Creative Action Story Picture.

The reason of this detailed examination is inclination studying proses between teacher and student in SDN Bangselok I. this proses has impact to outcomes of learning. Because of it, SDN Bangselok I have alternative to improve the outcomes learning by “Creative Action Story Picture”

The purpose of this detailed examination is to describe about “Creative Action Story Picture” media till improve outcomes learning of student class IV the second theme “always save energy” the second subtheme “the benefits of energy”.

The kind of this detailed examination is use the Classroom Action Research (CAR) method. The subjects in this research are all of the student of class IV SDN Bangselok I that number 22 students. Consist of 14 girls and 8 boys, who have different skills.

The outcomes learning of students in the first siklus on the subtheme material the benefit of energy get the value of knowledge student PB I, during the learning activities get the value 1,280 with the average of 65% and the value of knowledge student PB 6, during the learning activities get the value 670 % with the average 50%. in the second siklus with the value of knowledge student PB I, during the learning activities get the value 1,450 with the average 80% and the value of knowledge student PB 6, during the learning activities get the value 1,380 with the average of 75%.

This is said to increase because in the first cycle PB I (1,280) the average value of 65% and PB 6 (670) an average value of 50% in the second cycle PB I (1,450) an average value of 80% and PB 6 (1,380)) an average value of 75%. An increase in the value of each cycle proves that the learning outcomes of grade IV SDN Bangselok I students is successful.
