

ABSTRACT

This research is a qualitative research with primary and secondary data collection. Data collection techniques in this study with observation, interviews and documentation, while the analysis techniques are data reduction, data presentation and verification. The object of this research is the Petanque sport in Sumenep Regency, which specifically in this study discusses the profile and history of Petanque in Sumenep Regency. The purpose of this study was to determine the profile and history of Petanque in Sumenep District. The result of this study is that Petanque entered Sumenep Regency since 2019 brought by Feri Weldani and Noer Wachid Riqzal Firdaus, then officially established on November 06, 2020. Although it is considered a new sport, until now there have been many achievements that have been achieved both at the District, Provincial and National levels, and Petanque in Sumenep District already has a complete organizational device both personnel and institutionally. In addition, the facilities and infrastructure that have been owned for the development of petanque are 8 sets of Chinese Bosi, 13 sets of French Bosi, 5 field lines, 15 Circle and 10 Boka.
