**ABSTRACT**

This research aims to determine the extent of the implementation process of the LKS LU AL - AISIYAH program in improving the social welfare of the elderly in Talang Village, Saronggi District, Sumenep Regency.

The method used in this research is a descriptive qualitative method using a qualitative approach. Data collection was carried out using interview, observation and documentation techniques. Research data was analyzed using the stages of data reduction, data presentation, and drawing conclusions. The theories used to analyze this research are public policy theory and the theory of social welfare for the elderly. The object of the research is the social welfare of the elderly in Talang Village.

The results of this research show that the LKS LU AL - AISIYAH program is a program that operates in the field of support and care for elderly people in need, providing social assistance such as basic food assistance and things that the elderly need, and also good religious spiritual activities. This is managed by LKS LU AL - AISIYAH, which is a social welfare institution for the elderly which is engaged in helping elderly groups in Talang Village, Saronggi District, Sumenep Regency who have escaped assistance from the government, both from the district and village governments. The LU AL - AISIYAH LKS has carried out its activities from 2019 until now.
