

ABSTRACT

Jihan Faulida. 2024. Motivation of Students to Participate in Tapak Suci Extracurriculars at SMA Muhammadiyah 1 Sumenep in 2024. Thesis. STKIP PGRI Sumenep. Supervisor: Ainur Rasyid, M.Pd. and Winda Nuraisyah, M.Pd.
Keywords : Motivation, Extracurricular, Tapak Suci

Student motivation for taking part in the Tapak Suci extracurricular at SMA Muhammadiyah 1 Sumenep is one of the extracurricular activities that must be participated in by students at SMA Muhammadiyah 1 Sumenep. The problem formulation in this research is how students are motivated to participate in Tapak Suci extracurricular activities at SMA Muhammadiyah 1 Sumenep.

This research uses descriptive qualitative, with data collection using interview, observation and documentation methods.

The research results show that students' motivation in participating in Tapak Suci extracurricular activities at Muhammadiyah 1 High School Sumenep lies in a combination of intrinsic and extrinsic motivation. Students show strong motivation because they want to develop self-defense and guard skills Physical and mental health, as well as achieving achievements. Support from friends, parents and teachers also has a big influence in building their enthusiasm and commitment to this activity. The awards won in the championship not only increase their self-confidence but also strengthen their determination to continue participating and practicing. Overall, Tapak Suci extracurricular activities provide benefits in self-development and social skills, as well as strengthening students' commitment to the activities they undertake.
