

ABSTRACT

Supriyadi, Salam 19 “Pengaruh *Intelligence Quotient* Anak Terhadap Karakter *Andhap Asor* Di SDN KALIANGET TIMUR I Kecamatan Kalianget”

Key Word : *Intelligence Quotient*, Character, and *Andhap Asor*

This research aims to know the level of intelligence quotient as well as *Intelligence*/its influence on the character of the particular character of the *Andhap Asor*. Character *Andhap Asor* is prevailing in the region or the typical character of the island owned by Madura in regulating the behaviour of the madura.

The type of research used in this research is quantitative research method "in the form of figures and analysis using statistics, so to provide an overview regarding the variables examined are the dependent variables consisted of *Intelligence Quotient* and *Andhap Asor* independent variable.

Based on the results of the research in the East I Kalianget SDN obtained research results as follows: variable *Intelligence Quotient* (X) obtained $t_{hitung} > t_{tabel}$, meaning of 2.01, then $(5.741 > 2.01)$ then declared there are influences that positive *Intelligence Quotient* of the child against the *Asor Andhap* Characters. The influence of the free variable (*Intelligence Quotient*) of a variable is bound (*Andhap Asor*) is of 40.7%. The addition of 1% of the value of the ability of the *Intelligence Quotient*, the value increases of 0.557 *pertisipasi*. So it was concluded that the ability of the *Intelligence Quotient* influence on the character of the *Andhap Asor* students.
