

ABSTRACT

The Effect of Scout Extracurricular to the Student's Interpersonal Intelligence in Pajagalan II Elementary School of Sumenep on the School Year 2020-2021

Keywords: Scout extracurricular, student's interpersonal intelligence

There were some students of Pajagalan II Elementary School who have lacked interest in scout extracurricular activities. According to the headmaster the low interest in participating to the scout extracurricular activities of Pajagalan II Elementary School was caused by two factors, these are internal and external factors. Internal factor is the low interest from students themselves. Meanwhile, external factors that affect to the lack of interest in joining scout extracurricular are less support from their family.

This research is based on quantitative method, the researcher tried to find the direct and indirect effects of the independent variables. Design of this study can be classified as quantitative research with explanatory approaches. The population of this research was all students of Pajagalan II Elementary School. The sample of this research were 33 students in class of IV B grade. The sampling method in this research was using a random sample. Data collection method by using a questionnaire. Data analysis method in this research by using descriptive analysis. Data analysis in this research use simple regression analysis.

The results of this research show that the scout extracurricular has a significant effect to the student's interpersonal intelligence. This is showed by the results of $t_{calculated} > t_{table}$ ($5.005 > 1,693$) or value of sig. $0,000 < 0,05$ and result of the partial correlation coefficient by 0.545 or 54.5,% which means that the scout extracurricular contribution to student's interpersonal intelligence was 54.5%. There was positive impact and significant of scout extracurricular activities to student's interpersonal intelligence. This result was showed by path analysis that scout extracurricular (X) has a direct effect to the student's interpersonal intelligence (Y).
