

Abstract

The men's Handball STKIP PGRI Sumenep team has good achievements at the East Java level. This research was conducted to determine the factors that influence the achievement of the men's Handball STKIP PGRI Sumenep team in 2020.

The population of the research men's Handball STKIP PGRI Sumenep team is coaches and athletes. The sampling technique used purposive sampling such as 1 trainer, and 10 athletes. Type of this research is qualitative with descriptive methods and data collection techniques are observation, interviews and documentation.

This research found that the trainer had carried out his duties as a trainer coach, caretaker had carried out the well organization process, the facilities and infrastructure were still lacking, the environment had supported team activities. Athletes have been motivation to follow the exercise.

The conclusion is the most influential external factor in athlete achievement that is campus environment supports the Handball team and family of athletes who are given permission to join the Handball STKIP PGRI Sumenep team, and also the coach and caretaker commitment factors both the key to success in achievements, facilities and infrastructure still insufficient.

Keywords: Achievement, Handball, STKIP PGRI Sumenep.
