

## **ABSTRACT**

### ***THE EFFECT INQUIRY LEARNING MODEL USING WHATSAPP BASED ONLINE LERANING ON STUDENT LEARNING OUTCOMES WITH THEME 1 ANIMAL AND HUMAN MOVEMENT ORGANS AND SUBTHEME HUMAN AND ENVIRONMENT CLASS V SDN BANGSELOK I SUMENEP***

**Keywords:** Inquiry learning model, student learning outcomes.

This study aims to determine the increase in student learning outcomes of class V SDN Bangselok I. This research is a quantitative study, the type of this research is experimental research with the pretest-posttest control group design technique, this research was conducted in 1 class, namely half of the VB class as the experimental class and half of the VB class as the control class, the population in this study were 29 students, the data collection techniques used were pretest and posttest tests. The instruments used in this study include cognitive learning outcomes tests. Based on the results of the study, it was concluded that the Inquiry learning model could improve the learning outcomes of fifth grade students of SDN Bangselok I Sumenep for the 2019-2020 academic year as evidenced by an increase in student learning outcomes in the experimental class both on the pretest and posttest results, namely 51.33 and 75.33 , the learning outcomes obtained in the control class tend to be lower, namely 46.67 and 46.67 and the results of hypothesis testing also have an effect, namely 87.3% and the effect is  $0.002 < 0.05$ .
