

## ABSTRACT

### **Pengaruh Toleransi Terhadap Peduli Sosial Siswa Sekolah Dasar Negeri Aengbaja Raja Tahun Pelajaran 2019/2020.**

**Idris**

*Keywords: tolerance, social care*

Tolerance and social care have experienced erosion, students look busy with their habits or pleasures. If this is allowed to continue then the nation's generation will not have a sense of family, unity and unity. Because they do not interact with each other, so do not know the condition of their friends, whether there is a problem and need help or other activities. This study aims to determine whether tolerance influences the social care of Aengbaja Raja Elementary School students in the academic year 2019/2020.

This type of research is quantitative. The independent variable in this study is tolerance while the dependent variable is social care. The population is Aengbaja Raja State Elementary School students in the 2019/2020 school year. Samples taken were study groups III to VI with a total of 39 students. The sampling technique used is purposive sampling, where the samples taken are based on certain criteria. The research instrument used observation guidelines and questionnaire sheets. Data collection techniques using observation and questionnaires. The data analysis technique consisted of a classic assumption test and a simple linear regression.

The results showed a significance value of 0.018 (greater than alpha 0.05) so that it can be concluded that tolerance (X) affects social care (Y) of Aengbaja Raja Elementary School students in Bluto District, Sumenep Regency, 2019/2020 Academic Year. The magnitude of the influence of tolerance on social care of Aengbaja Raja State Elementary School students in 2019/2020 Academic Year was 14.1%, while the rest (85.9%) was influenced by other factors.
