ABSTRACT

Aplication Takaltar Media (Clever Multipacation Tables) To Improve Student's Learning On The Matematics Lesson Class II MI Raudlatul Muslim Year 2020/2021.

Keywords:Takaltar Media (Clever Multipacation Tables) , Result From Studying, Learning And Learning Matematics.

The study aims to know how a Takaltar Media (Clever Multipacation Tables), might be applied to the matematichs of the multipacation material to ecnhance the results of student study. As for the subject pf this study the gratde class II MI Raudlatul Muslim.

The method of this study USES class action reserach, where it USES cyclical research procedures. Each cycle consists of four stages including: planning, execution, observation and reflection. As for data collection techniques and data engineering using data analysis on the observasil sheet which includes teacher,student and test results of multiple choice and description.

The results of this study indicate that student have improved the results of learning in subjects of mathematics and multiplication materials. The complete study pre-cycele activities is 36% or 5 students out of 14 students already up to KKM. The il cycle is 57% or 8 students already reached KKM. Whereas on the il ketunthym cycle students are 85% or 12 from the number of 14 students who have achieved the KKM capabilities.
