

ABSTRACT

THE ROLE OF PARENTS IN ASSISTING CHILDREN IN ONLINE LEARNING AT SDN BULLA'AN 1 IN 2021

Keywords: The role of parents, online learning

Indonesia and the whole world are currently facing the COVID-19 pandemic. Since the Corona virus spread in Indonesia in early March 2020, causing the government to immediately take decisive action to prevent a wider spread, One of the impacts of the covid-19 virus is on education in Indonesia, one of which is by implementing distance learning from elementary to college level. So that in its implementation several problems aris. Parents are one of the people who are responsible for the education of their children. Therefore, the role of parents is needed to help these problems. This is the background for researchers to examine the role of people in assisting children in online learning.

The purpose of this study was to determine the role of parents in assisting children in online learning at SDN Bulla'an I Batuputih District Sumenep Regency and to find out the difficulties of parents in online learning at SDN Bulla'an I Batuputih District.

This research method uses qualitative research with a descriptive approach. Data collection techniques were taken through interviews, observation and documentation, the sources in this study were parents, school principals, and homeroom teachers of class V.

The results showed that the role of parents in online learning at SDN Bulla'an I Batuputih Subdistrict, Sumenep Regency, namely parents became two roles at once, first became parents, second became teachers, provided facilities and infrastructure, provided enthusiasm for learning, motivation, directed according to talent. and interest. The difficulty of parents in online learning at SDN Bulla'an I Batuputih District is that the educational background of parents affects the level of ease and difficulty by parents in educating their children, the economic level of parents also affects the online learning process, the difficulty of dividing time between children and work , the number of family members also affects parents providing guidance on online learning
