

THE TEACHER'S EFFORTS TO OVERCOME THE LOW LITERACY ACTIVITY IN CLASSROOM STUDENTS III B AT SDN PANDIAN I DISTRICT CITY SUMENEP REGENCY ACADEMIC YEAR 2020-2021

ABSTRACT

This study aims to describe the teacher's efforts to overcome the low literacy activity of grade III B students at SDN Pandian I and describe what are the constraints of teachers in overcoming low literacy in grade students III B at SDN Pandian I.

The research uses qualitative research with descriptive approach. Sources of data, selected from teachers and students of class III B at SDN Pandian I in the form of documentation and interview results. the data collection techniques used were observation, interviews. Data analysis using reduction data, presentation data, and drawing conclusions.

The results showed that literacy activities of class III B at SDN Pandian I still need attention from the teacher because some students doing literacy activities still have to be instructed by the teacher. Teacher always try to improve students literacy by creating "Pojok baca" and using LCD media when there is something important. However teachers experienced problems when the Covid-19 Pandemic required students to study at home so that teacher could not directly monitor and assess their students doing literacy.
