

ABSTRACT

Identification of Factor Causing Fluctuations in Futsal Team's Performance in Futsal Extracurriculars at SMPN 3 Sumenep. Jantan Satrio Pamungkas

Keywords: causative factor, Futsal Extracurricular.

This research is based on the achievements of futsal team in extracurricular futsal at SMPN 3 Sumenep which has been good but sometimes fluctuates. This study aims to determine the factors that cause fluctuations in the futsal team's achievement in extracurricular futsal at SMPN 3 Sumenep.

This research uses a qualitative approach with a survey method. Data collection techniques are done by observation, interviews, and documentation. The subjects in this research were SMPN 3 SUMENEP students who participated in extracurricular futsal with a total of 21 students, all of whom consisted of male students. Data analysis techniques using techniques from Miles and Huberman consist of data reduction, data presentation, and drawing conclusions.

The results showed that the factors that cause fluctuations in the achievement of futsal teams are athletes, teams, tools and facilities and weather factors. Based on the results of the study, the highest inhibitory factor is the athlete factor.
