### **ANALYSIS OF THE BASIC TECHNIQUES OF VOLLEYBALL ON VOLLEYBALL PLAYERS CLUB PELOPOR MUDA PAMEKASAN 2021**

**Robert El Hasani**

**Keywords : Basic Techniques Service, Smash and Block**

Volleyball is an overzealous sport of six people, with a game duration of about 90 minutes, with a detailed activity of some 250-300 movements dominated by a player's physical condition skills of power, agility and speed while those of passing smashes, service, and block level volleyball championship. The teenager in Pamekasan district is always represented by the youth athletes of the young pioneer club, so researchers were attracted to research on the volleyball abilities of both the physical and the techniques of a young pioneer club athlete Pamekasan by analyzing service techniques, block and smash.

This study employs a kind of quantitative research method with a descriptive method approach. Where this method of investigations illustrates true facts.

The results from the analysis of basic technical skill for Pelopor Muda club players on service techniques are good because the level of the ball goes in first set through to five continues increasing, on the spike techniques is not good and on well, the block a little rusty because its falling so high.

Looking at the result of the analysis, it can be concluded that the basic technical skill of Pelopor muda club volleyball players in Pamekasan regency are only service that get good categories, while the spikes and block are still lacking and need to be added.
